# Operational Update

## Energex Update - LV Switching Fees

Issue # C-0011 – 13/05/2020

Target Audience:

Energex - Accredited Service Providers

Introduction:

Small lot Low Voltage (LV) switching fees review

A LV switching sheet for small lot and fast track projects shall now attract a LV switching fee.

We reviewed the LV switching process for small lot projects in comparison to other larger sized projects. The outcome is the effort for Energex is the similar when checking and authorising regardless of size or complexity of the LV switching.

The LV switching fee as at today's date is \$280 (excludes GST). A copy of the subdivision fees and charges can be found on the [Energex website - Form 8818 – Connecting to the Energex Network – Fees and charges 2019\\_20](#).

These changes will be effective from any project requesting an Agreement received from Monday 1<sup>st</sup> June 2020.
